I can't verify it. If interested you might want to call Anne George to ask. They have a public fundraiser going on as well. My understanding is the fundraiser is in addition to the 205 but again, better to fact check it or leave it out.

Thanks
Wenona

Ok, thanks. I didn't include the OCF funds, in part because of something Anne George said at the meeting that made me question whether the funds were in fact available to the tribe now, or more of a fundraising goal. She said something about how they had opened up a fund for their donors to give to Warm Springs. Maybe that is something in addition to the \$205,000, but it left me unsure. If you think we can be sure the \$205,000 is real, I can go ahead and add it to the report. Let me know what you think.

Hi Sarah, I would not include the 35K community education support yet. The tribe may say they are not ready.

Did you want to include the 205K from OCF? I don't have any written proof of that, just seems to be common knowledge.

Yes we will have to see what Alyssa says about new POC.

Thanks,

Wenona

Hi Wenona,

Real bummer to hear from Alyssa that her last day is coming up so soon! 😞 I'm not sure where that leaves us. Perhaps Alyssa will tell us who we should work with in the interim, when we talk to her on Thursday.

I was going to ask you if the \$35,000 EPA Capacity Building grant should be included as a funding outcome in our NIPSC end of year report, but from what you said this morning, this isn't finalized because the tribe needs to let us know if they

actually want to move forward with the TA. If it happens, it sounds like it should go in our FY 2020 report? Just checking since Karl and I are trying to wrap up the NIPSC report today. Here's what I currently have in the report regarding our work with Warm Springs—let me know if I've missed anything:

New funding received/ \$	\$ 7,800,000.00	NIPSC organized a coordinated effort by EPA, HUD, BIA, IHS, USDA-RD, CNCS, EDA, the Oregon Governor's Office and several state agencies, philanthropy, and technical assistance providers to assist the Warm Springs tribe in addressing drinking water, wastewater, landfill, housing and sustainability/planning needs. NIPSC coordinated in person meetings on June 12 and September 24, as well as working groups that met between these meetings.	The tribe obtained an allocation of \$7.8 million in Oregon State Lottery Bond Funds for their water system, which will be available at the end of the biennium in 2021. <i>Pending: an application for \$450,000 in ICDBG Imminent Threat Grant to repair 5 Pressure Release Valves is under consideration by HUD HQ; a \$35,000 capacity building grant from EPA is also pending final approval.</i>	FY 19 Q3/Q4
New partnership/#	7	NIPSC organized a coordinated effort by EPA, HUD, BIA, IHS, USDA-RD, CNCS, EDA, the Oregon Governor's Office and several state agencies, philanthropy, and technical assistance providers to assist the Warm Springs tribe in addressing drinking water, wastewater, landfill, housing and sustainability/planning needs. NIPSC coordinated in person meetings on June 12 and September 24, as well as working groups that met between these meetings.	Through the coordination of NIPSC, the tribe is now able to work in concert with 7 federal agencies, along with numerous state partners and philanthropic agencies that are also part of the effort.	FY 19 Q3/Q4
